

Sustainability Award for HOBART

The new HOBART undercounter dishwasher with CUTLERY PREMIUM feature won the „Sustainable Equipment Award“ at the EARTH Conference 2024.

Offenburg, October 25, 2024 – The new HOBART undercounter dishwasher with CUTLERY PREMIUM function won the FCSI EAME 'Sustainable Equipment Award' on the occasion of the EARTH Conference. The event took place from October 17-20 in Zurich and was organized by FCSI EAME.

HOBART's warewash innovation was only recently introduced to the market and enables cutlery washing and polishing with just one machine. It also uses as little resources as possible and thus saves water, energy, and detergents. This smart technical solution impressed the jury and beat 23 competitors for the prize. HOBART was awarded because the innovative dishwasher contributes to a greener and more efficient way of working and thus to more sustainability in the food service industry.

About EARTH 2024

The Conference EARTH 2024 logo represents key themes and challenges in various sectors. "E" stands for economics, emphasizing the critical role of finances. "A" represents agriculture, highlighting the importance of farming and food sources. "R" is for recruitment, addressing the people problem in the workforce. "T" symbolizes time, emphasizing efficiency in the equipment world. The significance of "H" is clear: it represents the health and well-being of the food service industry.
